

Table of Contents

Chapter 1: Introduction

Chapter 2: Traditional Regression Modeling 1

2.1	The Purpose of Statistical Modeling	3
2.2	Statistical Modeling Assumptions	9
2.3	Checking for Outliers and Influential Data Points	23
2.4	Checking for Multicollinearity	28
2.5	Modeling Assessment Statistics	32
2.6	Bias-Variance Trade-off	39

Chapter 3: Neural Network Architecture 41

3.1	Single Layer Perceptron	43
3.2	Perceptron Training Algorithm	44
3.3	Multiple Layer Perceptron Architecture	47
3.4	An Explanation of the Neural Network Layers.....	50
3.5	Relationship Between the Predictive Models	51
3.6	An Overview of the Neural Network Layers	53
3.7	An Overview of the Neural Network Architecture	63
3.8	The Objective Function	77
3.9	Neural Network Architectures	84
3.10	Neural Network Hold out Method	90
3.11	Optimization	93
3.12	Numerical Examples of the Optimization Methods	113
3.13	Numerical Examples of the Network Designs	126
3.14	Regularization Techniques	140
3.15	Pruning Inputs	142
3.16	Interpretation of the Neural Network Inputs	145
3.17	Development to a Well-Designed Network Model	147
3.18	Advantages of Neural Network Modeling	149
3.19	The Default Settings to EM Neural Network Node	153

Chapter 4: The NEURAL and DMREG Procedure 155

4.1	An Overview of the SAS Neural Network Procedure	157
4.2	An Overview of the SAS DMREG Procedure	184
4.3	Multiple Linear Regression Example	189
4.4	Autoregressive Time Series Example	192
4.5	Basic Steps in Constructing the EM Diagram	195

Chapter 5: SAS Enterprise Miner	201
5.1 Opening the Enterprise Miner Application	203
5.2 Enterprise Miner Menu Options	206
5.3 Option Settings to the EM Environment	208
5.4 Enterprise Miner Projects and Diagrams	212
Chapter 6: Data Mining Using SAS Enterprise Miner	231
6.1 SEMMA	233
6.2 Possible Tools to the EM SEMMA Design	235
Chapter 7: Configuration Setup of the EM Nodes	249
7.1 Enterprise Miner Input Data Source Node	251
7.2 Enterprise Miner Data Partition Node	279
7.3 Enterprise Miner Regression Node	284
7.4 Viewing the Regression Node Results	306
7.5 Model Manager	311
7.6 Enterprise Miner Neural Network Node	314
7.7 An Overview of the Advanced Neural Network Node	331
7.8 Viewing the Neural Network Results	362
7.9 Neural Network Interactive Training	372
7.10 Enterprise Miner Assessment Node	383
7.11 Enterprise Miner SAS Code Node	409
7.12 Enterprise Miner Reporter Node	426
Chapter 8: Comparing Prediction Estimates	457
8.1 Comparing Multiple Linear Regression Estimates	462
8.2 Comparing Nonlinear Regression Estimates	466
8.3 Comparing Logistic Regression Estimates	475
8.4 Comparing Autoregressive Time Series Estimates	504
8.5 Comparing Discriminant Analysis Estimates	533
Appendix	557
References	577
Book Index	581
